

GT3's mission is to become the industry standard for processing ground transportation reservations. GT3's GDSConnect™ accomplishes this by providing a value-added service which allows Travel Arrangers to easily, quickly and seamlessly book ground transportation reservations through the CRS at the point-of-sale. GDSConnect™ systematically selects the appropriate ground transportation service providers based upon specific, predetermined corporate or travel agency requirements. This is accomplished at no cost to the corporation or travel arranger, while providing valuable MIS to help manage and control this significant expense category, estimated to represent up to 4% of T&E.

GDSConnect™ Features and Benefits:

- The only system that permits a single, automated booking methodology across multiple platforms (CRS Legacy, Legacy Web, Third Party Web, Retail Web, Intra-Net)
- Reduces point-of-sale booking time from 7+ minutes to a matter of seconds: GDSConnect's interface allows a round-trip booking to be completed in as little as five keystrokes, with vendor provided confirmation numbers in as little as 30 seconds
- Provided at no cost to the Corporation, Travel Arranger or Traveler — assessing only a nominal fee to Ground Transportation Service Providers

The screenshot displays the 'New Reservation' window within the Focalpoint application. The window title is 'Monday, February 03, 2003, 5:57PM'. The main content area shows a reservation summary with the following details:

- 1 AA1461Y 3FEB EWRORD BK1 600A 714A FR
- 2 HTL SI BK1 ORD 1FEB-OUT 3FEB /W-MARRIOTT MARQUIS DOWNTOWN1
- 23 MAIN STREET CHICAGO IL 20492 617-934-8978 **DAL RATE-\$158.00*

The 'New Reservation' form includes the following fields and options:

- Pick Up Date:** 2/3/2003
- Auto-Calculate Pickup Time:**
- Arrive Ahead (Mins):** 120
- Location Type:** Home | Office | Airport | Hotel | Other (selected: Home)

- Phone:** 201-398-1350
- City:** Elmwood Park
- State:** NJ
- Zip Code:** 07407
- Country:** USA
- Pick-Up Instructions:** Meet passenger at reception desk
- Pickup City Code:** EWR
- Radio Buttons:** 1. Pick-Up, 2. Drop-Off, 3. Additional Information
- Buttons:** Book It, Cancel

The status bar at the bottom of the window displays 'R01C004'.

GT3's GDSConnect™ Offers Value to Every Component of the Ground Transportation Reservation Process

Corporate Travel Manager:

- Reduces travel department operational expense due to efficiencies gained in the ground transportation booking process
- Provides efficiency, accuracy and automatic vendor selection
- Virtually unlimited reporting capabilities on data elements not available under current systems and practices — including exception reporting which enables the corporation to better manage, control, negotiate and budget ground transportation expenses
- Accuracy in the exchange of critical data between the travel arranger and ground transportation service provider, reducing service failures

Travel Agency:

- Extremely efficient ground transportation booking process utilizing a simple point-and-click graphic interface (also “fast-key” enabled)
- Automates and integrates ground transportation bookings at the point of sale, eliminating need for “one-offs” or post-call processing
- Systemic integration of service provider name, confirmation number, telephone number, meeting instructions and pick-up time into the appropriate “segment” of the traveler’s itinerary (PNR)
- Ensures information accuracy by importing data directly from the passenger profile and aligning reservations with air and/or hotel segments
- Reduces staff, telephone, fax and customer service expense from the ground transportation reservation process.
- Provides clear documentation to assist in the research of service failures
- Provides MIS that facilitates the tracking of commissions, if applicable
- Easy installation and training provided by GT3 that conforms to current booking methodologies and practices

Limousine Company:

- Reduces travel department operational expense due to efficiencies gained in the ground transportation booking process
- Provides efficiency, accuracy and automatic vendor selection
- Virtually unlimited reporting capabilities on data elements not available under current systems and practices — including exception reporting which enables the corporation to better manage, control, negotiate and budget ground transportation expenses
- Accuracy in the exchange of critical data between the travel arranger and ground transportation service provider, reducing service failures
